

EFM 2022 Notable Impact Highlights

Overview

EFM Fund III is a closed-end, private equity fund investing in forestland properties in the American West that have unique commercial and ecological characteristics. The Funds' forests are FSC-certified, an international standard that prioritizes long-term, sustainable management practices. This results in larger riparian buffers to protect habitats and drinking water, increased conservation and the protection of endangered species. The long-term, holistic and regenerative practices of EFM Fund II result in a variety of revenue sources for the Fund and its investors, including timber, carbon offsets, tax credits, conservation easement, ecosystem services credits and more.
