## 2022 Notable Impact Highlights

CANDIDE  
GROUP

### Overview

Impact Engine is a women-owned and led, Chicago-based venture capital and private equity firm investing exclusively in funds and companies driving positive impact in economic opportunity, environmental sustainability, and health equity.

### Primary Stakeholders

1. Underserved and marginalized communities, predominantly located in the US
2. Founders/CEOs and their employees

### Challenging "Business as Usual"

We create impact in four ways that challenge business as usual. 1. Building the middle market impact investing industry through our fund investments which are entirely focused on impact-focused middle market funds where we work closely to add value and help them grow with impact integrity; 2. Exposure to 50-60 companies with measurable impacts which we collect and report on twice per year in a way that aligns scale of impact with financial returns; 3. Diversifying the finance industry through the firm employments and diverse CEOs (59%) and Fund GPS (68)% ; 4. Building the impact investing field through our mission as a public benefit corporation to move more capital in alignment between financial and social returns. We provide thought partnership on personal and institutional impact investing strategies and regular educational events and articles to share why we invest and what we are learning.

The information contained herein is being provided to you for informational purposes only and is not, and may not be relied on in any manner as, legal, tax, or investment advice or as an offer to sell or a solicitation of an offer to buy any security. Private investments are illiquid and are not subject to ongoing daily valuation. Accordingly, the actual realized returns on unrealized investments may differ materially from the statements on impact stated herein. Nothing contained in the document may be relied upon as a guarantee, promise, assurance or representation as to the future. There can be no assurance that any investment will be able to realize investments in a timely manner. Investments in impact-focused securities are speculative and involve significant risks, including the risk of loss of the entire investment. Such investment is only suitable for sophisticated investors and requires the financial ability and willingness to accept the high risks and the lack of liquidity inherent in such investment. Prospective investors must be prepared to bear such risks for an indefinite period of time. Past performance is not indicative of future performance.
