

INVESTECO

2022 Notable Impact Highlights

Overview

InvestEco's main focus is investing in expansion-stage companies in North America that promote health and sustainability in the food and agricultural sector. Our companies typically have between \$1M and \$30M in revenues at the time of our initial investment, and we aim to hold our positions for about seven years. Our strength arises from being an investing pioneer in the sector, which has allowed us to develop extensive experience, expertise and networks that we are able to share with portfolio company partners to help successfully scale their businesses and achieve profitable exits.

Private investments are illiquid and are not subject to ongoing daily valuation. Accordingly, the actual realized returns on unrealized investments may differ materially from the statements on impact stated herein. Nothing contained in the document may be relied upon as a guarantee, promise, assurance or representation as to the future. There can be no assurance that any investment will be able to realize investments in a timely manner. Investments in impact-focused securities are speculative and involve significant risks, including the risk of loss of the entire investment. Such investment is only suitable for sophisticated investors and requires the financial ability and willingness to accept the high risks and the lack of liquidity inherent in such investment. Prospective investors must be prepared to bear such risks for an indefinite period of time. Past performance is not indicative of future performance.
